

AKADEMIA WYCHOWANIA FIZYCZNEGO
JÓZEFA PIŁSUDSKIEGO W WARSZAWIE

THE INTERNATIONAL SCIENTIFIC CONFERENCE

OCCUPATIONAL THERAPY
EVIDENCE-BASED PRACTICE

OCTOBER 27, 2023

Józef Piłsudski University of Physical Education in Warsaw
Faculty of Rehabilitation Department of Occupational Therapy

HONORARY PATRONAGE:

Minister of Education and Science
Republic of Poland

Rector of Józef Piłsudski University
of Physical Education
in Warsaw

**Project co-financed from the state budget,
granted by the Minister of Education and Science (Poland)
under the "Excellent Science II" Program**

The organizers kindly invite scientists, educators and practitioners at all stages of professional development to participate in the conference. Our intention is to organize an event enabling the presentation of research results related to occupational therapy by both titled and novice researchers, to provide opportunity for discussing scientifically verified practices and new concepts, solutions and approaches. We encourage professors, doctors, masters, graduates of bachelor's studies and students to submit applications regarding the use of occupational therapy for people with neurological, orthopedic, mental health disorders and patients with social dysfunctions, including those requiring social rehabilitation or social reintegration. Applications from representatives of sciences whose achievements are used in occupational therapy, and in particular from psychologists, educators and health promoters, are also welcome.

Already today, we can announce with satisfaction that conference participants will have the opportunity to listen to lectures by scientists with significant achievements in the field of occupational therapy and related sciences. In the workshop session, among others, there will be logarithmic impact, hand therapy and scar therapy presented.

Key speakers:

- Prof. Beata Batorowicz, Queen's University, Kingston
- Prof. Mirosław Bober, University of Surrey
- Prof. Patricia Crist, Annals of International Occupational Therapy
- Prof. Emma George, University of Adelaide
