

Erasmus is one of the most beautiful things in my life. I won't forget my erasmus memories for all of my life. Sometimes I'm unhappy when I think that it will finish. But you know everything finishes when the suitable time comes. Yes erasmus or all beautiful things finish but our memories, nice photos live with us forever ☺ I believe that I learned a lot of things during this time. For example you meet with different people, cultures, traditions, life styles not only you meet variety of the country you come for erasmus but also you learn something from your erasmus friends that come other countries. Also you can compare your culture with others ☺. Learning new things is unprizable. So every minute you can learn new things. You can try some kinds of meals also. You can meet with different climate, you can do some different sports in this way. I want to show you some pictures about this examples ☺

We went to Cross-Country Skiing with our erasmus friends. It was our first time and really it was unforgettable and wonderful. We enjoyed too much.

You can see some new places. This is one of them whose name is Old Town. It is fantastic place and it is worth to see.

I took my Christmas gift also ☺ This Christmas Diner was interesting for me. Like culture, religion is also not the same. You can learn something about the variety of beliefs.

All things belong to my erasmus life are unforgettable so I miss everybody, everything ☺
Thanks to all my coordinators in my family of AWF. You are really interested with us very much so thank you for everything ☺
